Dear Doug;

I would like to take this opportunity to express my gratitude to you and your company for the exceptional work you recently performed here at the Hill-Stead Museum. In my experience Skip Caffrey, Lewis Maturo, Bob Gagliardi and Bruce Duley are among the finest technicians I have ever worked with here at the museum. Their professional manner, attention to detail and over all sensitivity to the historic nature of the building was very much appreciated.

Due to the superior quality of workmanship these men exhibited, the Hill-Stead Museum will receive a much more extensive and up to date phone/data cabling system, while at the same time enabling us to remove the old outmoded system, resulting in far less unsightly exposed cable and wiremould than previously. It has rarely been my experience here at the Hill-Stead to have an installation of non-historic material result in less disturbance to original building fabric.

Sincerely;

Bill Mullen
Buildings Manager
Hill-Stead Museum
